

We manage the cleaning at several apartment complexes around the Country Club Plaza and other accounts around the Greater KC area. Usually, we are responsible for knocking down cobwebs, vacuuming & mopping floors, wiping entry door glass, and pulling trash. Most cleanings are every-other week; some are weekly. They range from 1 – 2 hour jobs. Once hired, a student would have *nearly total freedom* in arranging their class and cleaning schedule.

We pay much better than this kind of job usually gets compensated. It may average around \$12 per hour because we pay according to “reasonable expectancy.” That means if a job is worth \$18 and you can complete it well in just 1 hour, then you get \$18 per hour. Another week (during the winter, for example) it may take you longer. We cannot pay you gas money, but your travel time is usually incorporated into your pay.

This job is very independent, so the applicant needs great time-management skills; they need to be self-driven, and a good communicator. They should be able to drive themselves with a valid drivers’ license. They should also have good character since they will be representing me, and most of my clients know that I am a pastor. The applicant should also be able to move quickly without missing details. Note: we use only backpack vacuums which requires a certain level of physical fitness.

This work will start as soon as you can qualify for the position. It is desired that you plan to stay at least 2 years, but other accommodations can be made. If you can be trusted to do a great job efficiently, then we can build more business around you and get you more work.

If you are interested, I would love to see whether we can make you a part of the team. Please contact Jay Wilson at pastorjaywilson@gmail.com or 207-807-7774
