CHURCH OF THE NAZARENE

## Worship Pastor

### About the church...

Liberty, as we call ourselves, is a growing multi-generational church that feels like one big family. Since our new lead pastor arrived last summer, our mission focus has turned to being a church family for the family. We define success not by what happens on Sunday morning, but Monday mornings.

Liberty is located in the beautiful Pacific Northwest, which makes for a great playground for our church to enjoy. We are a community of faith that enjoys having fun, raising our families, serving our city, and seeking first the Kingdom of God as we follow Jesus together. We long to see Vancouver, Washington experience the redeeming power of Jesus.

Liberty is a church in the process of developing the vision and plans that will serve as a compass for this new chapter in the life of our congregation. Lately, on any given Sunday we have over 400 worshipping in the building and another 80 online. This is an exciting season as our church, who recently turned 40, looks to the next 40 years of vibrant ministry in our community.

### About the position...

We have a team of talented musicians and a technical team who will be your immediate flock for which you will lead and care.

We have a staff that you will be an instrumental part of, helping to lead and guide the larger congregation.

We have a creative team that, together with the lead pastor, you will help plan worship services and message series that connect with a multi-generational church.

We have two Sunday morning services that will be the focus of your responsibilities, while also serving as a resource to the youth worship team as well as prayer and worship nights.

We have a tech director on staff that you will closely collaborate with to develop the experience for those in the church building and those watching online.

This is a position for someone who works well in teams, has experience leading worship, and who is at home with contemporary worship music while being mindful of those whose roots are in more traditional soil.
